

Argos, like an arch, has great strength and provides foundational support to build a family and business on.

Drop a pin - Argos is the destination.

A Town Within A Park
Read more below.

Featuring a town asset which is the excellent parks.

One of Argos' greatest assets is the incredible school system. Complementary colors will seamlessly promote the town and the school while highlighting tradition, strength and courage.

A path symbolically connecting families, friends and traditions while literally connecting the town parks.

A Town Within A Park

To some, a park is defined by its square footage of grass, play equipment or walking trails that accompany it. To Argos, a park is more. A park means growth. It means play. To us, a park means traditions, family time and experiences. It means you are home.

Argos is focused on positive strategic growth. We play hard and we are rich with traditions. We offer numerous opportunities for experiences shared by our residents and their families. And in the near future, Argos will literally be A Town Within A Park...as our town parks will all be connected by a pathway.

Why Gold, Black and Gray?

Gold is often found to mean tradition. It is also said to mean love, courage, passion and wisdom. The color **Black** represents strength, power and authority. **Gray** is a timeless color that is cool, neutral and balanced.
